**! IMPORTANT !**

If you decided to enter a trade with us:

A. You should manage your risk 1% to 2% of your account per trade.

B. If you have a strategy, and our signal doesn't fit your strategy, then don't enter.

C. If you don't have a strategy, we would advise you to learn one instead of copying signals blindly. ( I can help you with that).

D. Know that we face losses, and losses are part of the game, so we should accept them and manage our risk carefully.

E. We don't allow any REFUNDS once you join our Signals Chat. Past Performance Is Not Indicative Of Future Results.
